Are you ready? To Schedule Easy!

RECOMMENDATION ENGINE

Augments your decision making by recommending the best employee/s matched for the job based on criteria such as skill, preference, and performance

ALERTS

Set up various alerts to get notified in time if your open shifts are not filled, your team is not staffed, or if your coverage need is not filled

SHIFT DROP

Prioritize the publishing to a selected group first, from a pool of available people, based on the recommendation engine

MOBILE APP

Manage, get notified, and respond from anywhere, anytime, real-time for both managers and employees

CUSTOM FIELDS

Create custom fields that are smart and actionable. Define and create as many as you need

SCHEDULE TEMPLATES

Create your favorite daily or weekly shift plans and save them as templates for reuse

SHIFT SWAP

Ability for employees to swap schedules with a coworker based on company policies and approval controls

TEAM STAFFING

Ability to staff a team for a job by planning, creating, managing and notifying based on the team, not individuals

TARGET INVITATION

Prioritize the publishing of schedules to a select group first, from a pool of available people, based on the recommendation engine rules
