

Mobile

Intelligently designed and built in the USA

Being able to make decisions pertaining to your workforce on the go is paramount to businesses today. Don't be restricted solely to your desktop for managing your employee times. Discover the huge benefits to making use of Easy Clocking's proven Time and Attendance Mobile application. Gain the visibility and flexibility your organization needs by making the switch to Easy Clocking.

Geo Fencing

Enabling Geo Fences within the Easy Clocking software allows for set parameters up to 1 foot of specified GPS address! Rest easy in knowing that your employees are clocking in and out exactly where you want them to be.

Mobile Clock-in restriction

Restrict employee clock-ins to specific cell phones via each cell phone's unique International Mobile Station Equipment Identity IMEI or Identification number.

Employee Self Service Portal

Empower your employees with the ability to review and approve their time cards on the go. Employees also gain the ability to request time off, check their schedules, and timecards all from the Easy Clocking Mobile application.

Admin/Manager Portal

Easy Clocking's mobile application allows for administrative approval and disapproval all on your mobile device. Specified admin's now have the flexibility of checking employee times, absence requests, and messages from Easy Clocking's powerful Mobile App.
